# **Recognition**

## **Automatic Recognition**

## **System**

**UNIE ensures full automatic recognition of all credits (based on the European Credit Transfer and Accumulation System - ECTS) earned through successfully achieved learning outcomes during a period of study/training abroad, including combined mobility.**

UNIE applies relevant credits based on the subjects taken by students participating in the program, following the EHEA and Spanish and European legislation. They receive a certificate acknowledging their completion of courses at our university, emphasizing their knowledge in new technologies and Spanish language development, which we prioritize in our curriculum.

In our undergraduate and master's programs, courses typically carry an average of 6 credits. Our institution recognizes these credits if they have been completed at the relevant foreign university or if internships have been undertaken at an affiliated institution with which we have established necessary agreements. University curricula must share common points or compatibilities with ours for these credits to be deemed assumable and acceptable, a process overseen and developed by our General Secretariat.

Our General Secretary manages these credits in accordance with Royal Decree 967/2014, of November 21, which establishes requirements for the procedure for the recognition and declaration of equivalence of qualifications, and Royal Decree 1125/2003 of September 5, which regulates the grading system in official university degrees in relation to the European Credit Transfer and Accumulation System (ECTS). Credits are automatically recognized upon receiving the report following the mobility period from the host institution/university.

Additionally, we provide participants who have arrived at our university with a detailed report through the Academic Secretary, as well as to their home institutions. This report adequately describes the achievements made during their mobility period with us. In addition to the aforementioned certificate confirming the completion of courses at our university or internships at the chosen center.
